

Public Call for Targeted Training in Montenegro

Training on “Additive Manufacturing production technologies”

Date: 17, 18, 19, 20 and 21st of March 2025.

Venue: IEC Tehnopolis, Radoja Dakica bb, Niksic, Montenegro

Project: AMTECH – "A Cross-Border Initiative for Additive Manufacturing Innovation and Integration", funded by the **Interreg IPA South-Adriatic Programme 2021-2027 (SA-0100202)**.

Call Details:

The public Call is open for 18 participants (of which 5 from Italy and 5 from Albania) interested in attending a **30-hour (5-day) targeted training** on the **analysis of how additive manufacturing impacts on production management and hence how production management must be changed with respect to traditional manufacturing systems**. The training will also focus on analyzing the existing problems and challenges of additive manufacturing technology and its future development trend.

Eligibility Criteria:

- Students enrolled in bachelor/master degree programs at universities for the academic year 2024-2025.
- Entrepreneurs from manufacturing, pharmaceutical-healthcare, and aeronautics sector
- SME owners
- Other individuals interested in the subject matter

Admission Requirements:

- Degree of appropriate level of education (highschool or university)
- Curriculum Vitae
- Montenegrin citizenship and residence in Montenegro, Albanian citizenship and residence in Albania, Italian citizenship and residence in Italy
- copy of a valid identity document

Training Format and Language:

- The training includes classroom lessons and group work.
- The training will be conducted **in English**.

Participation Benefits:

- Participants will receive a **Certificate of Attendance** upon completion (minimum 75% attendance required).
- For selected participants from Albania and Italy, the organizer will cover travel, accommodation, and meal expenses. Additionally, lunch and coffee breaks will be provided daily for all participants.

Application Process:

- **Deadline for submission:** 10th of March 2025.
- Candidates have to complete the application form ([Google form](#))

Evaluation Criteria:

Applicants will be assessed based on:

- **Academic qualifications** (up to 35 points)
- **English proficiency** (up to 15 points)
- **Relevant work experience** (up to 30 points)
- **Other relevant qualifications** (up to 20 points)
